- Surfing the Internet
- Reading

PROFILE

I am a self-motivated software developer with experience in both front-end and back-end development. My knowledge of designing real-world problem-solving products has grown as a result of my experience with personal projects, freelancing projects, and hackathons. I'm very enthusiastic about continuing to learn and improve my skills.

WORK HISTORY

Software Developer

amaTech | 2016 – Till Date [Full-Time]

My role is to engage in identifying, designing, installing and testing a software system that I have built from the ground up. It can range from creating internal programmes that can help businesses be more efficient to producing systems that can be sold on the open market.

Front End Developer

COINMAC International Inc. | 2021 – Till Date [Remote]

My responsibility is to ensure that website visitors can easily interact with the page. I do this through the combination of design, technology and programming to code a website's appearance, as well as taking care of debugging.

Full Stack Developer

Codebox Innovative Services Limited | 2021 – Till Date [Freelance]

My primary responsibility includes designing user interactions on websites, developing servers and databases for website functionality and coding for mobile platforms. Particular responsibilities often include: Developing front end website architecture.

COINMAC Technical Support

COINMAC Initiative

March 2022 - Till Date

Provide technical guidance and support to Brazil Embassy Abuja, for Installations and Configurations of CCTV to enhance the security operations.

CERTIFICATION & VOLUNTEER WORK

Exemplary leadership (Honors Award)

COINMAC Initiative

February 2022

For an outstanding display of leadership and commitment to the success of my team project.
